BAS BRICK SANDING MACHINE MK IV

2025 NEWS LETTER JANUARY.

BAS SANDING MACHINE CASE STUDY. 2 MAIN LINE SANDING MACHINES.

Having just recently completed first major service after 6 years of Sanding, within a production cycle.

Sanding for approximately 6 months a year at a rate of 100,000 bricks per shift Per Machine.

Running time, 2 Shifts per week. Equates to 400,000 Sanded Bricks per week.

Depending on production requirements, with two Extruders, easily Sanding 1,600,000 Brick Sanded per month.

The Sum's speak for themselves 800,000 x 6 months = 4,800,000 Sanded Bricks PER sander Per YEAR.

X 6 years = 28,800,000 Bricks Sanded, per SANDER.

MAIN POINTS.
